

## Scenario 1: Test Drive Booking

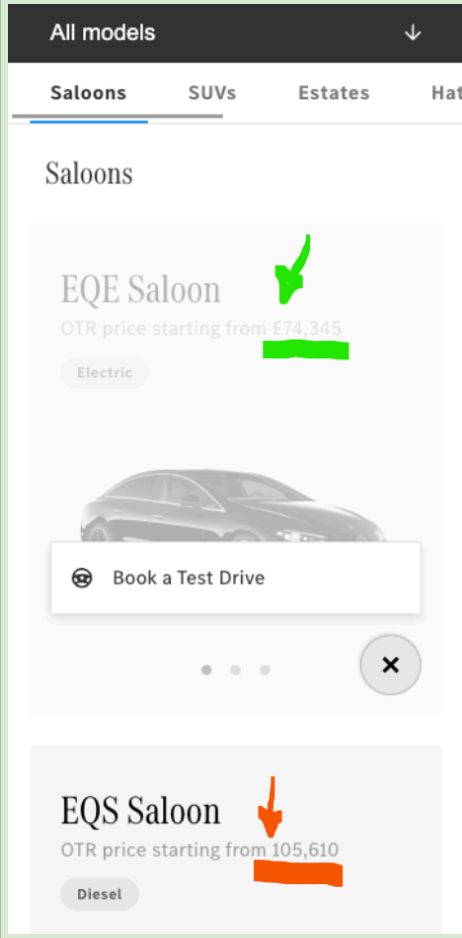

### 1. Select a vehicle model:

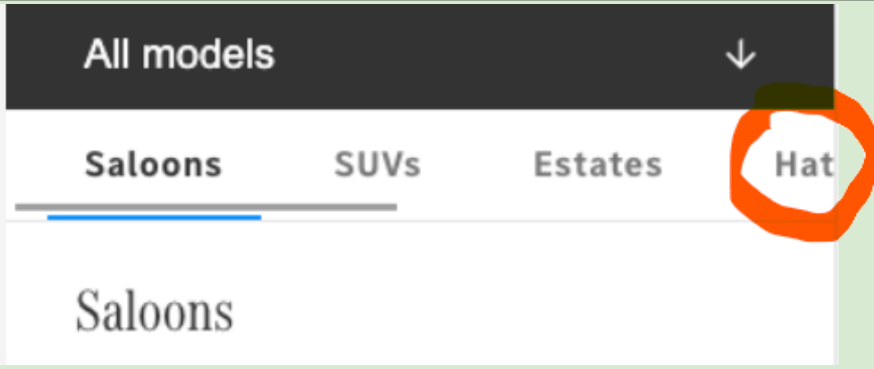

ID	1
REPORTER	Aline Barreto
STATUS	New
ASSIGNED TO	
TITLE	[Layout] - Adjustments to the car model cards
PRECONDITIONS	IOS 16 Safari v16.5 Market: United Kingdom
STEPS	1. Access the Test Drive Booking app. 2. Open the "All models" session. 3. Select the "Saloons" model.
EXPECTED RESULT	The expected behavior is for each car model to be presented on a complete card, without being cut up, allowing a clear and complete view of each model per screen.
ACTUAL RESULT	The display of car models in cards below the "Saloons" title is incorrect. The current layout presents one car model per card, however, the next card is partially cut off, resulting in improper display.

STATUS	New
ASSIGNED TO	
TITLE	[Results] - Include pagination information
PRECONDITIONS	Ipad Pro 12" Chrome v114.0.5735.198 Market: Australia
STEPS	1. Access the "Search for Vehicles" test application
EXPECTED RESULT	Display pagination information at the bottom of the screen, like the example attachment
ACTUAL RESULT	The result of the first page displays the message "100+ Available Vehicles" but does not display pagination to view the next cars.
SEVERITY	Critical
VERSION	Latest released: 8.246
ENVIRONMENT	Production
DATE	07/07/2023
ATTACHMENT	 <p>The screenshot shows a mobile application interface for searching vehicles. At the top, it says '100+ Available Vehicles'. Below this, there are three vehicle cards. Each card displays a car image, the model name (A 200 Hatchback or GLA 200), engine details (120 kW, Petrol, Automatic), a 'In Stock' status, the estimated drive-away price, and the weekly rental amount. The first two cards are for the A 200 Hatchback, and the third is for the GLA 200. Each card also lists features like AMG Line, 360-degree camera, and front seats electric. At the bottom of the screen, there is a pagination bar showing '12 of 227 vehicles' and a 'Show more vehicles' button.</p>

<b>ASSIGNED TO</b>	
<b>TITLE</b>	[Sorting] - Page sorting doesn't work in "Current Offer"
<b>PRECONDITIONS</b>	Ipad Pro 12" Chrome v114.0.5735.198 Market: Australia
<b>STEPS</b>	1. Access the "Search for Vehicles" test application 2. Click on the button: "All filters". 3. Select the filter: Vehicle Type 4. Select the model checkbox: "EQB" 5. Click on the button: "Show ( ) Available Vehicles"
<b>EXPECTED RESULT</b>	The price sort should validate the total amount with the discount applied.
<b>ACTUAL RESULT</b>	The sort selected is "Price: Low to High", but it is considering the values without the "Current Offer": 90,000.00 92,000.00 93,000.00 With the "Current Offer" applied, the values are sorted incorrectly, as below: 80,000.00 83,200.00 81,600.00
<b>SEVERITY</b>	Critical
<b>VERSION</b>	Latest released: 8.246
<b>ENVIRONMENT</b>	Production
<b>DATE</b>	07/07/2023
<b>ATTACHMENT</b>	 <p>The screenshot shows a web interface for vehicle search. At the top, there is a 'Sorting' dropdown menu set to 'Price: Low to High'. Below this, three vehicle cards are displayed, each for an 'EQB 250' model. Each card includes a 'Current Offer' badge, a vehicle image, and technical specifications: '140 kW', 'Electric', and 'In Stock'. The 'Estimated Drive Away Price' is shown at the bottom of each card. The first card shows A\$ 80,000.00, the second A\$ 83,200.00, and the third A\$ 81,600.00. The prices are not sorted correctly as the third vehicle is cheaper than the second.</p>
